

January 1st, 2021

Public Services (Social Value) Act 2012

Social Value Statement.

This is our preliminary company statement regarding our engagement on the Social Value Model as contained within the Public Services Act 2012.

The Directors of Axis welcome this Act and we have already begun our process of engagement with industry, community, local Government and employees as to how Axis Electronics can positively contribute to the prosperity agenda for the UK and our industry.

The main areas we are working on are as follows:

- Covid-19 Recovery.
- Tackling economic inequality.
- Fighting Climate Change.
- Equal opportunity.
- Wellbeing.

Through our collaboration with our stakeholder groups we anticipate having a working document for each of the main areas within 2021 and in some cases we will have made good progress during the current year.

We welcome involvement with our stakeholder groups, especially our customers and employees, in helping Axis develop a truly evolutionary Social Value model that really does help UK prosperity and support the UK Government.

Please do not hesitate to contact Axis Electronics to assist us in our work, my email details are below and I look forward to hearing from you.
